## RELEVANT EXPERIENCE

Self – Freelance Developer  
Calgary, Alberta, Canada

July 2020 – Present

- Business Website Sky Electric

**Technologies:** HTML5, CSS3, JavaScript, Netlify, Git

**Summary:** Developed a business website for an electrical contracting business, using responsive design practices.

**Live:** <https://www.skyelectric.ca/> | **Code:** <https://github.com/JulesRuby/skyelectric>

- Personal Website

**Technologies:** HTML5, CSS3, JavaScript, Netlify, Git, SVG

**Summary:** Designed and developed a personal website to showcase some of my projects and portfolio. As well as have some fun experimenting with CSS to infuse it with modern retro / synthwave appearance. Implemented client side form validation via JavaScript.

**Live:** <https://jrmuri.dev/> | **Code:** <https://github.com/JulesRuby/jr-muri-website-simple>

Calefy – Student Developer

May 2020 – July 2020

Calgary, Alberta, Canada

**Major Achievement:** Developed and implemented dynamic grouped slider inputs. A component reusable throughout the form builder software, coded to lock before exceeding threshold, and prevent submission of any input not meeting the expected totals.

- Leveraged React, Informed, and Material UI in the development of custom, reusable JavaScript components, expanding the scope of options in the dynamic form builder application
- Collaborated in live component usability testing and evaluation from marketing team to confirm integration of developed components

---

## PROJECTS

- **Reely Movie Nominations**

**Technologies:** Vue, Vuex, HTML5, CSS3, JavaScript, Netlify, Git

**Live:** <https://sad-morse-2b9e87.netlify.app> | **Code:** <https://github.com/JulesRuby/turgid-watermelon>
